

PED VAULT LINEUP

A Solution for Every Situation

Securely Contain Mobile Devices

Our Personal Electronic Devices (PED) Vaults prevent PEDs and cell phones from being exploited by technical surveillance equipment by acting as an RF and acoustic container.

Offering Solutions for All Scenarios

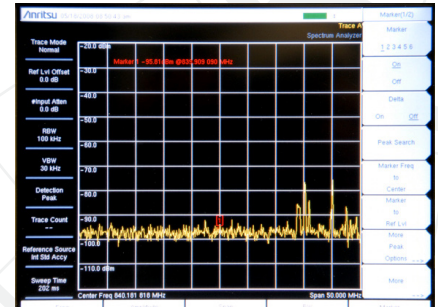

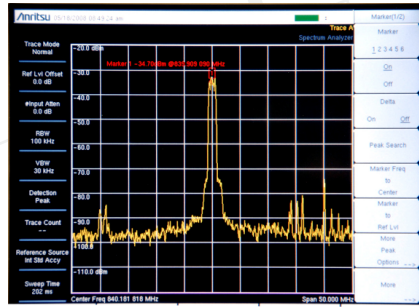

Operational scenarios may require the ability to secure mobile phones or pagers. These devices may be subject to theft or manipulation if left unattended, but a PED Vault lets visitors securely deposit their devices inside a secure area.

The PED Vault prevents a device's microphone from recording or listening to nearby conversations, and it prevents cell phones from sending or receiving calls. It also eliminates other communications, including 802.11 and Bluetooth transmissions and IR paths.

A comprehensive solution to provide RF and acoustical security countermeasures, the PED Vault is perfect for Sensitive Compartmented Information Facilities (SCIF), Temporary SCIFs and Temporary Secure Working Facilities (TSWF).

Our Experience, Your Savings

Our extensive experience designing and building RF-shielded enclosures with integrated sound-masking technology lets us provide a cost-effective solution better than anyone else in the industry.

▲ Signal comparison shows a cell phone call outside of a PED Vault (left) and inside (right).

Features

- ◆ Voice-masking generator
- ◆ Sound-deadening material
- ◆ RF-shielding Electron materials
- ◆ Various models suitable to deploy in diverse situations
- ◆ Prevents communication with:
 - ◆ Local cellular towers
 - ◆ Nearby wireless routers
 - ◆ Wireless network interfaces
- ◆ Prevents theft or manipulation by keeping devices in the room
- ◆ **Contact us to discuss custom PED Vault production services**

*A complete, worry-free
security solution
for storing and shielding
Personal Electronic Devices*

Specifications

SMS	Voice-masking noise generator
Electrical	12 V dc, 1 A power supply (included) connects to standard 110/220 V ac (50/60 Hz) outlet
Shielding	To -80 dB attenuation

PED Vault

Available with or without legs for maximum versatility.

MODEL PED-F01

Holds 25 devices
27/13.5 × 20 × 13 in

PED XL

This attractive cabinet is our largest solution.

MODEL PED-XL

Holds laptops/phones
25.5 × 20 × 17 in

PED Mobile

Built into a rugged case for demanding travel scenarios.

MODEL PED-M01

Holds 25 devices
21.7 × 14.1 × 8.9 in

PED Desktop (L)

Attractive finish pairs aesthetics and security.

MODEL PED-D02

Holds 10 devices
15 × 10.5 × 7.5 in
